Student Activity Department developed at the Vistula Group is not only unique in Poland, but incredibly important for the University. Our students come from over 100 countries of the world. Apart from normal problems with understanding the rules of the academic life, organizing their life in Poland is a challenge for many of them as well. A support from this department is a perfect way to help them deal with problems, understand the opportunities, and make their life at the University less stressful and more enjoyable.

**Rector of Vistula University
Wawrzyniec Konarski, PhD, DSc**

Student Activity Department established at Vistula Group of Universities, including Vistula School of Hospitality plays an essential role for our students and lecturers. Vistula School of Hospitality is a leading hospitality university in Poland. Not only we think about future, but we create it. Thanks to Student Activity Department students have the chance to act responsible, do projects and connect with amazing leaders. This department not only makes students' lives at the University less stressful and more enjoyable, but also gives them the development opportunities to perform better in their professional careers.

Successful students were assigned as coordinator of the unit, to take interest in their aspirations and future plans. The members of Vistula School of Hospitality Business Council gave this issue a priority, understanding that it is also important for them. One of the advantages for the Business Council is that they can find good employees, relevant to their expectations making it a win-win situation. Daily cooperation with Business Council is crucial because it is our future.

**Rector of Vistula School of Hospitality
Professor Aleksander Ronikier, PhD**

Student Activity Department is unique undertaking, that distinguishes Vistula University among others universities. It engages and integrates three groups of the academic community: teachers, students of older years and students starting their higher education. For first-year students, it provides real support in the process of adapting to a new stage in life, giving the opportunity to quickly get to know university, senior colleagues and lecturers. For older students involved in the implementation of the academic and social unit activities, it is a challenge but also an opportunity to acquire and develop social competences, necessary in personal life and career.

**Vice Rector for Student Affairs
Maria Gasińska, PhD**

Education and research are the most important issue at the university and students should focus on them. However, university is not only for education and research, but scientific, academic, social, cultural and sport activities are part of our university life as well. That's why, we are continuously working to make our life in Vistula better with extracurricular activities. Of course, we must mention that we are not alone. Without our students support, we can do nothing. We would like to thank all our students who were active and putting lots of effort to make events better. Additionally, we would like to thank our authorities as well for their valuable support.

We have students from more than 100 different countries. We do all scientific and social activities with 10 scientific and 17 social clubs, around 1200 members. Main events done by main units such as mentoring and student councils. In mentoring we have around 80 Senior students as mentors and they were guiding 300 junior students as mentees, voluntarily. AFIBV and SGTIH have different student council but they are working together. They have shared duties and became very good bridge between university and students. Additionally, we started alumni activities this year and we intend to make it bigger and better. As student activity department we had more than 100 events during 2022-2023 with more than 3000 students involved.

See you with more and more scientific and social activities in next academic year!

**Coordinator of Student Activity Department
Edip Senyurek**

What have you been doing: Co Państwo robiliście na wydarzeniu: What did you discuss: O czym była dyskusja: The details: Prosimy o wszystkie detale.	2. Ethics Unwrapped was on the agenda of the IR Club meeting. Feeling highly encouraged to share the outcomes of the session. At the very beginning of the session participants immersed into the topic, brainstorming on what associations they have when hear the word “Ethics”, in this way we elaborated the concepts, meaning of which our students were coining by themselves, enriching them with their own understanding and perception. Not of less interest was the part where colleagues were faced with exemplary ethical dilemmas, ruminating about choices they would make being in someone else’s shoes . This served as a logical connection to the topic which revealed the meaning of such ethical theories as Utilitarianism and Deontology. But the part I like the most was our participants’ feedback and sincere enthusiasm.

The next session of the IR Club was dedicated to the XVIII Book of Plato. I can proudly say that we had a great meeting yesterday! It was based on the 8th book of Plato. We aimed to clarify the concepts of timocracy, oligarchy, democracy, and tyranny and make a correlation between them. We ended up with "The game of Islands". Participants were divided into 'islands' where they had to build a specific regime. After all presentations, we voted for the best island. As a result, we examined how the process of regime change occurs. Participants came to the conclusion that many CIS countries, in a way, are going through a transitional moment from one regime to another. That was very brainstorming!

Later, we are going to take a glimpse into the phenomenon of trauma, how it can be recovered, how much time should pass, what actions should undertake, and who are these people in charge of conducting such activities. The presentations were amazing. To the organizers of every game and activity we had, thank you. Without every hand that was involved, it would not have been a success.

Without a doubt, we can affirm we are all relaxed this weekend, amazing memories were made, and we are ready to tackle the next semester.

Thank you once again!!

Yours sincerely,
Student Council AFiB
Secretary-General
Ima-Abasi David.

The next session of the Club was dedicated to "The Role of Religion. Religion as a Source of War or Peace". This time our participants were equipped with the knowledge of the origins of faith. When did people start to believe? And what was their motivation to commence? At the point where everybody would agree on is that religion could be utilized as a tool. On one hand it is a great source of settling disputes and invigorating people. In the hands of the wrong people it could cause devastating effects. That is how "Social Darwinism" or the law of selection came into existence. This was one of the concepts our students were enlightened about. As the last part we arranged debates, where everyone was able to share insights and bring arguments, buttressing his/her side. Are you certain that you are able to lead health discussions, operating with the information, exceptionally linked to the topic? As it appeared, it was not a piece of cake. But we are all here for you to educate, inspire and foster!

Common trip to Krakow with the members of the IR Club. The journey was made up of different activities. The first destination that our team reached was the Auschwitz Birkenau State Museum. We had a 3,5 hour excursion over 2 parts of the Museum: Auschwitz and Birkenau. Participants were amazed by the scenes shown and history heard behind those terrific places. I assume, this experience turned out to be quite beneficial in terms of understanding what horrific consequences could follow when power is acquired by the wrong people who intended to gain the monopoly of the truth. The second day of the trip was spent observing the Kazimierz district of Krakow, which is home to Krakow's historic Jewish District.

Program of the event: Program wydarzenia:	Prezentowanie i porównanie kultury polskiej i tureckiej: poezja, kuchnia, taniec, muzyka, edukacja, sport, religia, rodzina, święta i tradycje itd.

Studenci przygotowywali projekty, porównując różne aspekty kultury, takie jak: : poezja, kuchnia, taniec, muzyka, edukacja, sport, religia, rodzina, święta i tradycje. Projekty te były przedstawiane podczas Festiwalu. Uzupełniono je o oryginalne fragmenty literatury polskiej i tureckiej, recytowane podczas Festiwalu. How many students were active from your organization: Liczba aktywnych studentów z Państwa organizacji:	wszyscy (36 osób)
If you had any problems, tell us about this: Jeżeli państwo mieli jakikolwiek problem, prosimy powiedzieć:	Generalnie nie mieliśmy większych problemów ze zorganizowaniem wydarzenia (jeśli chodzi o współpracę ze studentami). Jednak brak dużej sali w Akademii spowodował, że musieliśmy zorganizować Festiwal na parkingu (co utrudniło też dekorację i odpowiednie nagłośnienie). Kolejną trudnością był brak sprzętu do wyświetlania prezentacji (były one odtwarzane na telewizorze). Ostatnia rzecz, na którą chciałabym zwrócić uwagę, to dość mały budżet na tego typu wydarzenie. Musieliśmy załatwiać wiele rzeczy "po znajomości", mieliśmy trochę ograniczone możliwości.
